2021 MAY REPORT

We would like to appreciate for your love and prayers towards our orphans we would like to inform you that our orphans live in bad conditions due to the lack of medical care, food, and school fees. So we would like to inform you that are in need of your love, prayers and assistance for the better life of the orphans.

AGRICULTURE REPORT

We carried out agriculture with the help of our beloved Brother SANG REY but unfortunately agriculture never succeeded due to the lack of financial assistance especially in weeding the corn since it was the crop which we cultivated, we rented 10 Acres but due to the lack of ability of taking care of them we never got good harvest, we harvested 70 sacks and we got pandemic breakdown which brought a lot famine in the community we decided to give food to the needy and the orphans, we really appreciate so much for your love and heart towards our orphans .

We have suggestion of our area to get pure water and technical school so that our orphans can get better future even we have a problem of land where we can carry out agriculture project.

May the Lord bless you in Jesus Name.

Yours in service

BYAMUKAMA EMMANUEL (Chief Director)
