Dear Mannatech

How are you?

This is Pastor Sang Cho Rey, CEO of Goahead Mission Inc, which is a UN partner and cares for orphans around the world.

I've heard a lot of good things about Ambrotose from Mannatech Company.

So, I would like to buy it because I think there will be good results if I give it to Lee Eun-ji (born in 1900), a Korean woman, who is in a vegetative state or living like a mummy due to a hospital accident.

I want to save money to buy a product, but it's not easy to save money.

I'm trying to buy it on Amazon, but it costs about \$180. Please help me buy it for a very low price or donate to help save that woman.

For reference, when Lee Eun-ji was 14 years old, she had a medical accident and was bedridden. Her speech and language perception are healthy, but her body remains bedridden.

If you regain your health thanks to Mannatech's Ambrotose, your company will also bring great glory to God and all mankind.

Please let me know if you can sponsor or not.

In our Lord Jesus Christ.

Rev. Sang C Rey of the President of Goahead Mission Inc.
